

## BRINGING HOPE TO YOUNG LIVES

Here at Horsley Medical Practice, we offer a Young Persons First Response to Mental Health clinic, in partnership with east to west

The clinic is available at St Luke's surgery in Guildford, and offers triage sessions to discuss the mental health need of young people. During the triage, appropriate suggestions for or referrals to support can be made.

This service is offered to young people between the age of 11-18

Please speak to the surgery or request a consultation via the NHS app
