

Flu and COVID-19

Vaccinations

Important update for our patients

NHS England have advised that if you are eligible for a flu or COVID-19 vaccination, you will need to arrange this through your local pharmacy, not through Littleton Surgery.

We recommend contacting your local pharmacy directly to check availability and make an appointment where required.

Children's flu vaccinations:

Flu vaccinations for children are offered through their school. If your child misses their school vaccination session, the school will arrange a catch-up session. If your child does not attend school, you should contact your local pharmacy to arrange their flu vaccination. Please make sure you and your children have your vaccinations when offered, particularly if you are at increased risk of becoming seriously unwell.
