MENINGOCOCCAL DISEASE **OUTBREAK** INFORMATION

PLEASE READ THE FOLLOWING INFORMATION CAREFULLY.

Important Vaccination Details:

Born Before 2015

On NHS Routine
Vaccination scheme

Born After 2015

- Children born before 2015 would have already received the Meningitis C vaccine.
- They are due for the MEN ACWY vaccine in Year 9 or at age 14 years.

- Children born after 2015 have received all required meningitis vaccines.
- No further doses are needed.

Meningitis B Vaccine **CANNOT** be given on the NHS for children over 2 years old.

If you still believe your child might need a Meningitis vaccination, please contact
a **Private Vaccination Clinic.**
