

MMRV Vaccine

From 1st January 2026 **MMRV**
will be offered as part of the
routine immunisation schedule
to protect children from:

- measles**
- mumps**
- rubella**
- chickenpox** (varicella)

 **Read the leaflet here**

If your child was born on or after 1 January 2025 your child needs to have their MMRV at:

- first dose 12 months**
- second dose at 18 months of age**

to have the best protection from all four diseases. Speak to your GP practice and have your Red Book ready.

Or enter this shortlink <https://qrco.de/ukmmrv> if you cannot scan.

A visual guide to vaccines

used in the routine immunisation schedule | January 2026
