## Privacy Notice

The latest information Governance and Data Protection legislation requires us to ensure that a patients personal data must:

- Be collected only for a legitimate purpose and processed only in a way that is compatible with that purpose.
- Be limited to what is required in relation to the purpose for which it is used.
- Be accurate and kept up to date.
- Not be kept for longer than is necessary.
- Be processed and stored in a safe and secure manner.
- Collected and processed lawfully, fairly and transparently.

We want to reassure our patients that we have systems in place that allows us to record, process, share and store their personal data in accordance with the requirements of current regulations.

As a patient you have the right to:

- Be informed about the date we collect and the reasons why it is collected.
- Know how we will use your data and the way we store and archive it.
- Access your data.
- Have any errors in your data rectified.
- Have your records erased in certain circumstances.
- Restrict processing of your data.
- Transfer your data to another health care provider.
- Object to us processing certain data.

We have to obtain your explicit consent to use your data in certain circumstances and you have the right to withdraw your consent at any time. Our organization is also compliant with the national Data Opt-out policy. Please ask a member if you have any queries about how we use your data.

NHS England has been directed by the government to establish and operate the Open Safely COVID 19 service and the Open Safely Data Analytics service. These services provide a secure environment that supports research, clinical audit, service evaluation and health surveillance for COVID 19 and other purposes.

Each GP practice remains the controller of its own GP patient data but is required to let approved users run queries on Pseudonymized patient data. This means identifiers are removed and replaced with a pseudonym.

Only approved users are allowed to run these queries, and they will not be able to access information that directly or indirectly identifies individuals.

Patients who do not wish for their data to be used as part of this process can register type 1 opt out with their GP.
